Subject: RE: Candidate Survey: US Nuclear Weapons Policy

Hi Rick,

Thanks for resending me a copy of your survey. I had seen this one before, and a week or two ago our policy director and campaign director went over it with some of our policy advisors/consultants when they were at our headquarters. I think one of them must have walked off with my copy (the original), or else I left it on the copy machine and it didn't find its way back to my office. Anyway, we want to thank you for extending the opportunity to participate but we have decided not to submit a response. I should have notified you sooner, but as there was no longer a copy in my file for follow up correspondence, I failed to do so. I apologize for the delay in getting you an answer. Thank you for your patience.

Best,

Carter
