

NUCLEAR DANGERS

A Zoom discussion with

Dr. Ivana N. Hughes, NAPF President

Professor Richard Falk, author of

***This Endangered Planet:
Prospects and Proposals for Human Survival***

Selected by Foreign Affairs Magazine
as one of only six Books for the Century (Political and Legal).

Join us for an informal conversation with Professor Falk and Dr. Hughes
as they discuss the nuclear dangers that have escalated due to
the Ukraine War. They will also examine
the existential environmental crises identified by Falk
in *This Endangered Planet*. As early as 1971, Falk was prescient in calling for
"...a revolution in consciousness that would reimagine how
peoples and societies could organize themselves for sustainable life."

Thursday, September 29, 2022

11:00 am PT 2:00 pm ET 8:00 pm CET
